

Clearly Straight Smile

The most comfortable
and invisible way to
straighten your teeth

Why O Clear Aligners?

O Clear Aligners are a series of clear custom designed and made aligners that are invisible, removable and comfortable to wear.

Using the innovative system, a 3D smile simulation is created showing how your teeth is shifting into the predicted position. It allows you to see the final result, the length and the price of your treatment.

Removable

O Clear Aligners Benefits

- © Smile everyday with confidence. Aligners are made of premium transparent material that you can barely feel and notice.
- © Opposite to braces, O Clear Aligners are removable whenever you drink or eat. It also makes it easy to clean and maintain the overall oral hygiene.
- © No metal wiring causing cuts, only comfortable solution that allows you to perform sport activities and enjoy the meals you love anytime.
- © O Clear Aligners are BPA, Latex and allergy free, crack resistant, easier to put on and take off, and are comfortable to wear.
